IN RE: TO NOT Meeting The  
CRITERIA For Eye doctor.

Complaint

Warden, Thomas I spoke to you on 4-6-06  
out in the Common-Area inference to a  
Response I received back on a medical griev-  
ance on the 4-5-06. IN which Nurse Ellis  
stated " Criteria Not Met for eye M.D. 10/05  
See (attached form) MR. Thomas question is what  
Criteria I must meet in order to see the Eye  
doctor? \_\_\_\_\_  
\_\_\_\_\_

Such as I must be Completely blind in order to get to see the Eye doctor or what? \_\_\_\_\_

---

Warden, Thomas as I explain to the Health Care personnel that I having trouble seeing while reading and I'm working on my case. The trouble I'm having reading have severely impeded my ability to properly litigate my case. And for the Health Care unit to out-right deny me access to the Eye doctor who are capable of prescribing reading glasses, would also deny me adequate and meaningful access to the courts in violation of Warden Bounds v. Smith - US - 522 F.2d. 72.

Thomas I'm not trying to cause you or your health personnel (providers) any problems, I'm just trying to get some help in (Medical) concerning my eyesight going bad while trying to read anything such as letters, Books, law work ect. -- in which runs together when I read. Warden, Thomas any informations you can provide me with on what criteria I must meet will be gladly appreciated by me. Thank you for you time!
